Evolve

With the development of Evolve we focused upon enhancing the intuitive comfort and simple user adjustment. Evolve incorporates a revised tilt action and the chair is available in a choice of colours for the moulded components.

The inclusion of flexible seat and back membranes enhance comfort and flexibility whilst also delivering excellent thermal benefits to the user.

Design by Paul Brooks

Standard Features (*Selected models only)

Light Grey base
Brushed steel 150kg gas lift
Synchronised mechanism with adjustable tension and travel limitation in four steps, including locking upright
Two degree negative seat tilt

Material Content

Components are constructed of the following

Recycled Content

Contains up to 41.5% of Recycled Material

Recyclability

The range is 100% recyclable

100%

SENATOR 3 R'S

Senator is committed to continually improving the sustainability of all environmental aspects within our business.

To meet both international standards and our own environmental targets we apply the three R's principle

-Reduce, Reuse and Recycle.

Whilst recycling is the element which receives the most exposure it is actually

the last option available and should never be the prime target in anyone's battle to reduce waste.

It is our duty as individuals and as a company to initially attempt to **Reduce** usage. Then we should look to **Reuse** wherever possible and finally, only after these two processes have been exhausted, should we consider **Recycling**.

–Reduce
–Reuse
–Recycle
