

Chemistry Desking.

Height Adjustable

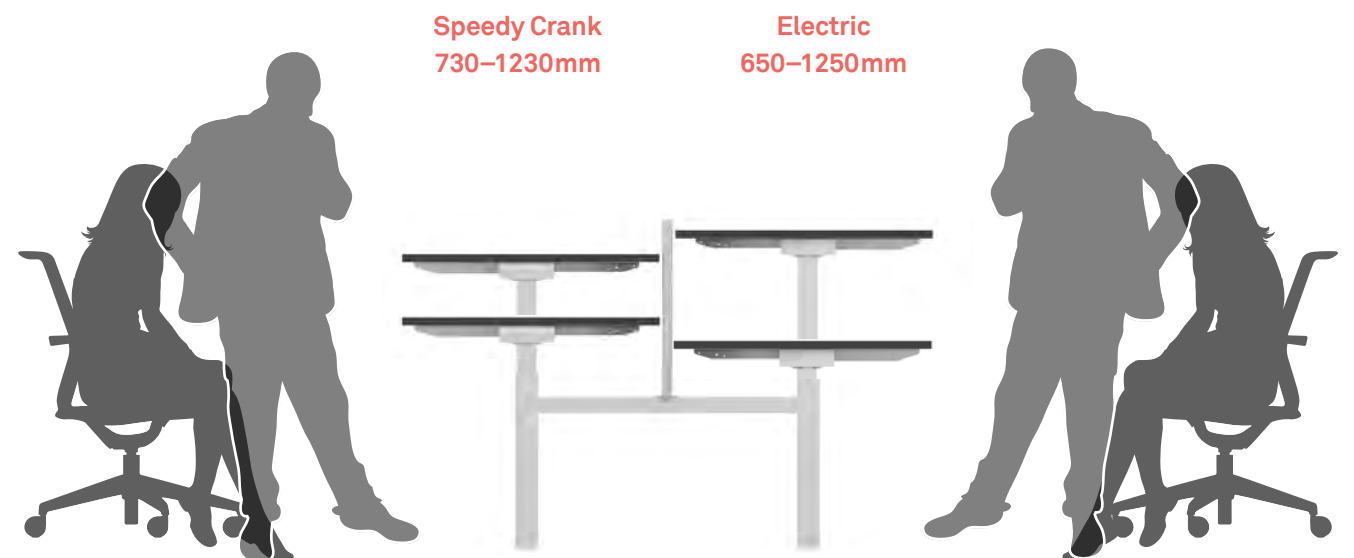

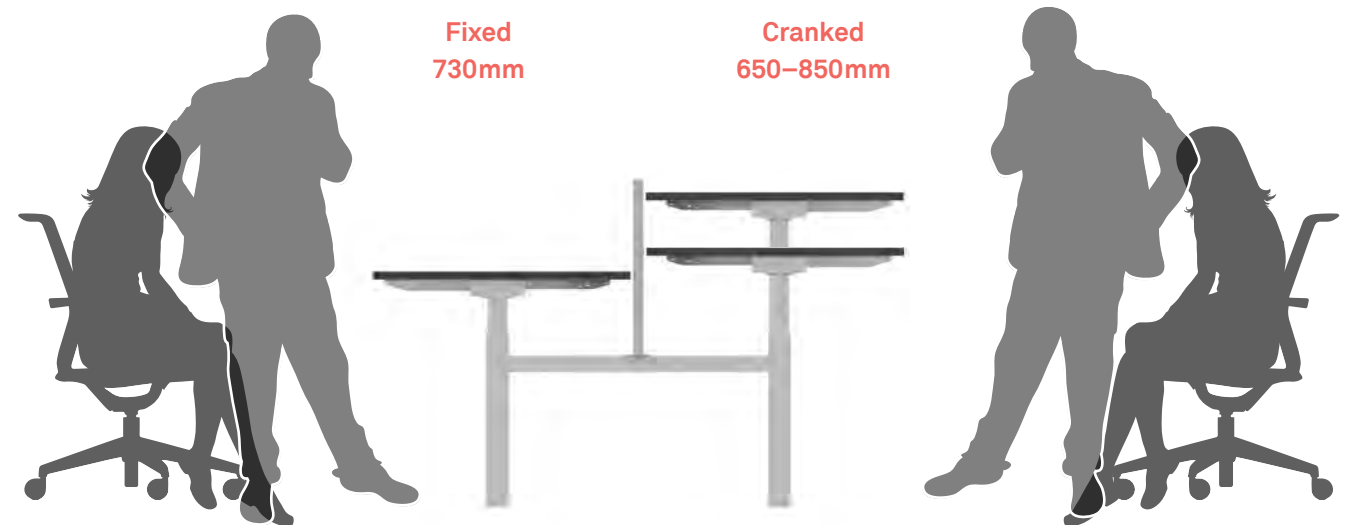

Chemistry Desking.

Height Adjustable

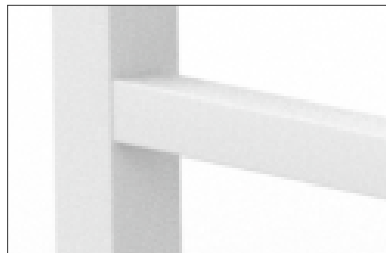

Chemistry Height Adjustable desking is designed to fully interact with the user, whether that be in a seated or standing position. Based around a 70mm square steel, back to back, 'H' frame, providing superior strength and stability, there are four individual models available, to suit exact user requirements

- **Fixed** **730mm**
- **Crank** **650mm – 850mm**
- **Speedy Crank** **730mm – 1230mm**
- **Electric** **650mm – 1250mm**

Chemistry Desking.

Height Adjustable

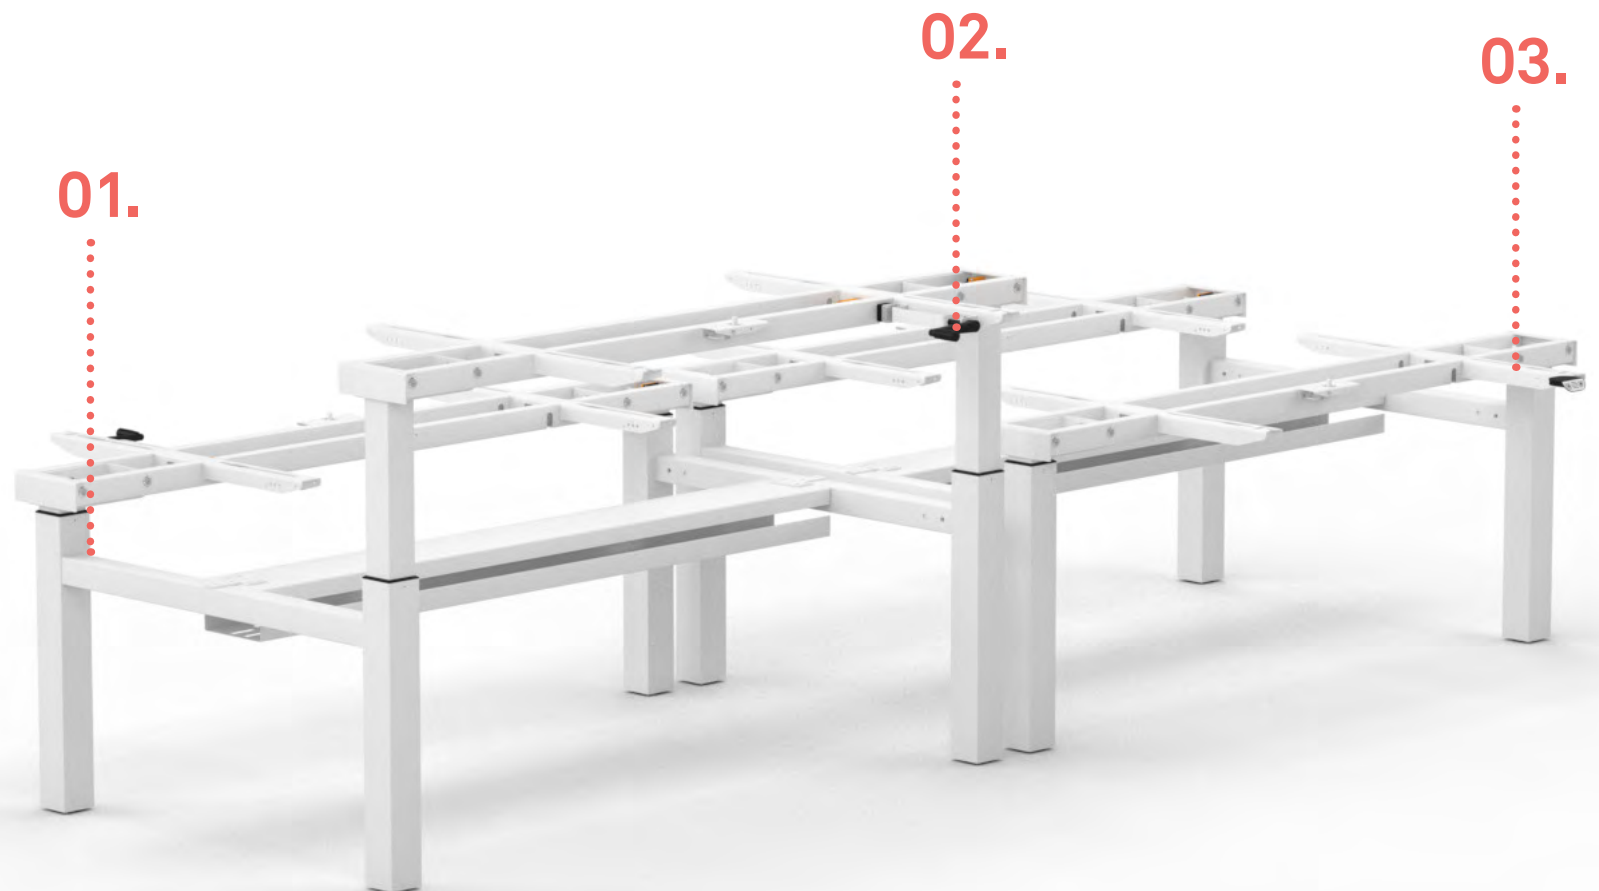

01. Flush jointed 'H' frame, with invisible fixings, for a neat clean aesthetic

02. Easy turn 'lockable' handle for crank and speedy crank operation

03. Touch control pad for electric operation

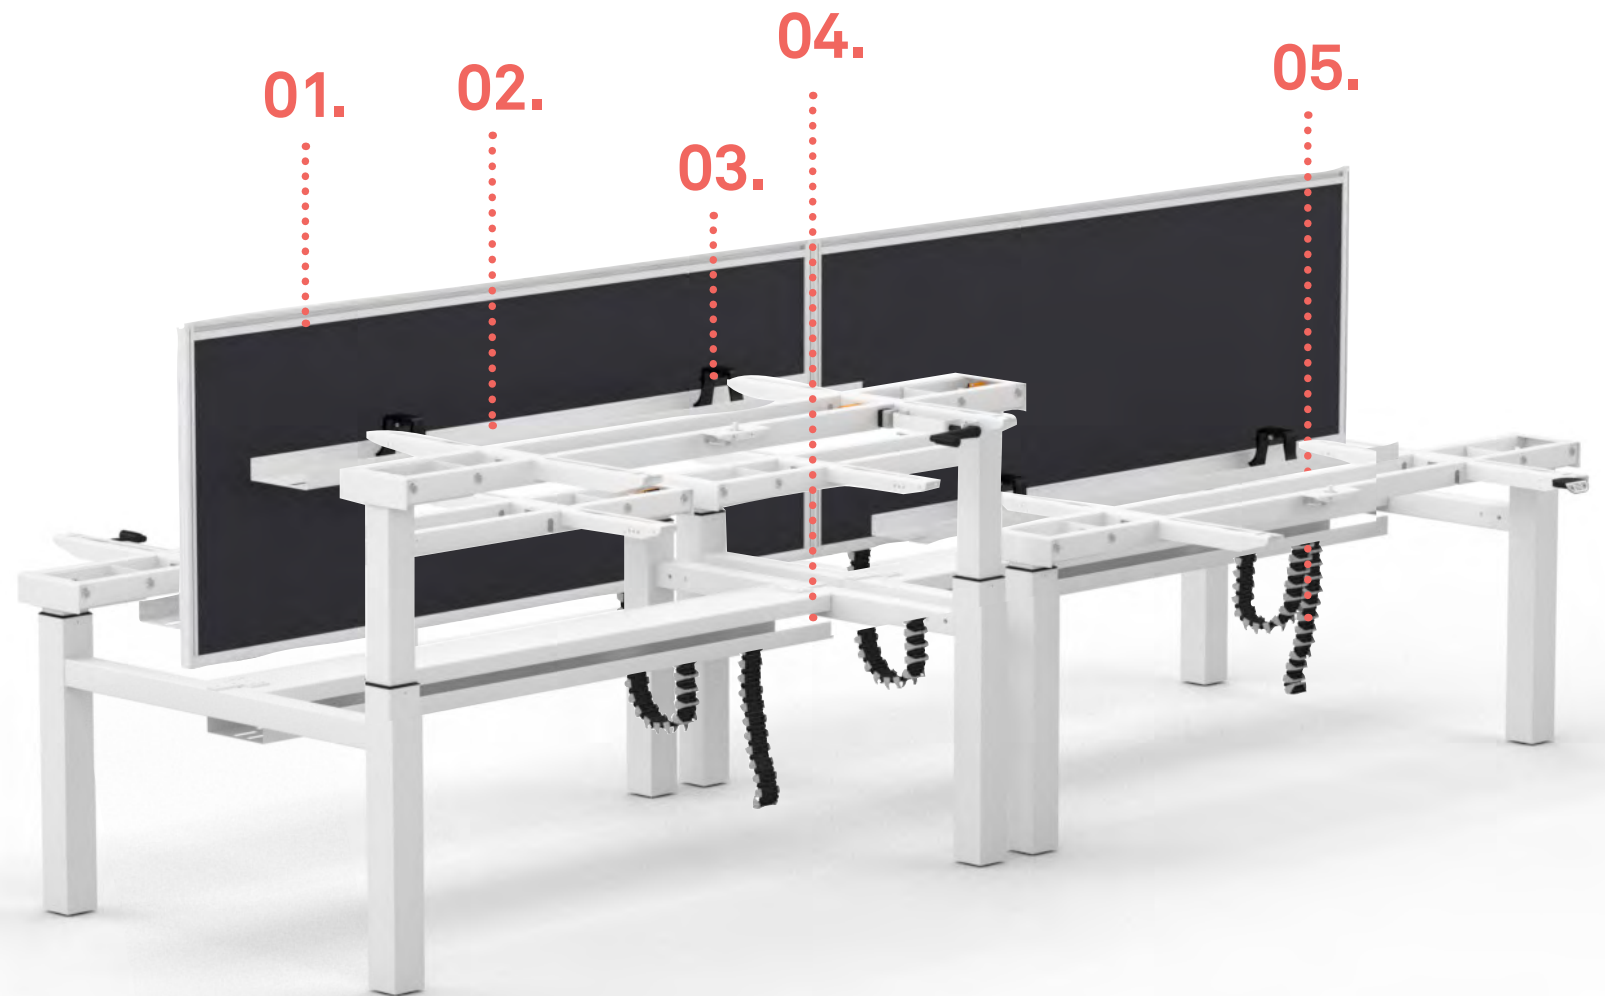

Chemistry Desking.

Height Adjustable Screens & Cable Management

Chemistry Height Adjustable comes with the option of a fully integrated, quick release, Cable Management system.

The system includes individual trays, dedicated to each top and a communal tray, which runs centrally down the length of the frame. Each tray can be linked via the use of highly adaptable cable risers.

Also available, standing at a fixed height of 1150mm, is a dedicated Universal Screen option, which allows the Height Adjustable range to suite perfectly with all other Chemistry Desking range systems.

01. Universal Desk Screens

02. Dedicated Cable Tray

03. Quick Mount/Release Fixing

04. Communal Cable Tray

05. Cable Management Riser

Freestanding

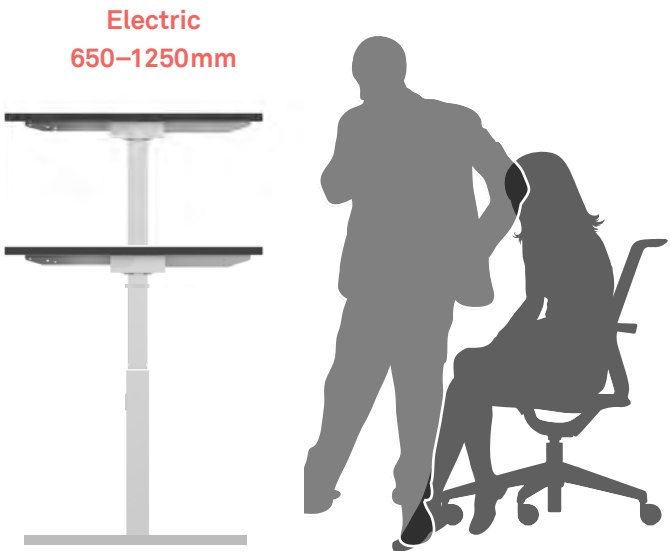

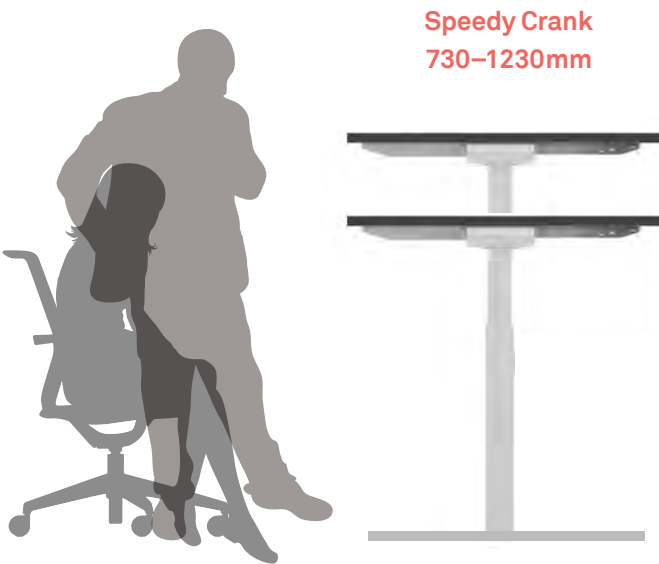

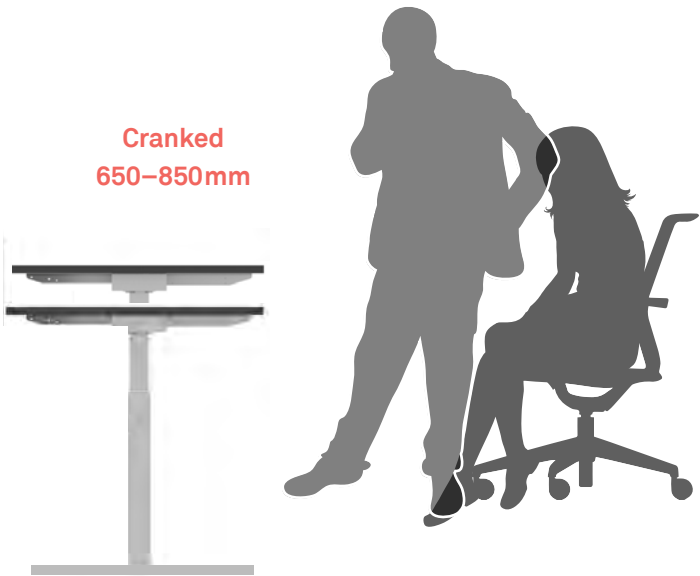

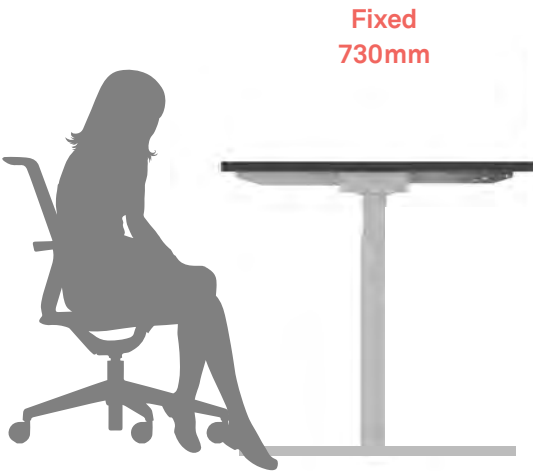

Chemistry Desking.

Freestanding

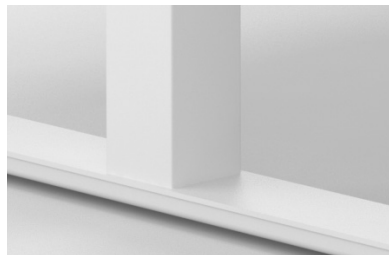

Also in the offering, to compliment the back to back Chemistry Height Adjustable range, is a dedicated freestanding workstation, featuring a 70mm square 'I' form leg, with a low profile foot. The freestanding workstations offer the complete range of height adjustable movements, fixed, crank, speedy crank and electric. Plus the benefit of an optional quick release Cable Management System, and the ability to frame mount the Universal Screen range.

- **Fixed** **730mm**
- **Crank** **650mm – 850mm**
- **Speedy Crank** **730mm – 1230mm**
- **Electric** **650mm – 1250mm**

Chemistry Desking.
