

Scoop

Design by Fraser Lee

Visually minimal, Scoop is simple, compact and clever. Clever in that each item can stack, be it chair, armchair or stool. Simple construction tubular steel frames and pressed ply seats with their own unique character give Scoop a freshness over and above the plethora

of existing monoshell designs on the market. All seats are veneered with either a rich Alpi-Lignum design similar to Zebrano, or with a beech veneer, which can be stained to achieve a choice of alternative shades.
