# Rhapsody

The design of Rhapsody is a simple yet beautiful shape, it delivers fantastic comfort and is superbly detailed and upholstered.

That said we have not lost sight of the functional and ergonomic requirements of its user so the design incorporates a fully functional progressive synchronised tilt action.

Available as a high and mid back with a complementary cantilever side chair Rhapsody is the perfect selection for a senior executive today.

Design by Paul Brooks

**Standard Features** (*Selected models only)

Polished aluminium base*

65mm hard wheel castors*

Synchronised mechanism with adjustable tension and back locking function in 11 positions, including locking upright*

1% **Fabric**

29.5% **Steel**

15% **Aluminium Castings**

**Recyclability**

The range is 100% recyclable

100%

## SENATOR 3 R'S

Senator is committed to continually improving the sustainability of all environmental aspects within our business.

To meet both international standards and our own environmental targets we apply the three R's principle

-Reduce, Reuse and Recycle.

Whilst recycling is the element which receives the most exposure it is actually the last option available and should never be the prime target in anyone's battle to reduce waste.

It is our duty as individuals and as a company to initially attempt to **Reduce** usage. Then we should look to **Reuse** wherever possible and finally, only after these two processes have been exhausted, should we consider **Recycling**.

–Reduce
–Reuse
–Recycle
