

Senator

Symmetry

So why Symmetry? Is it the Symmetry of the beautifully crafted die-cast polished aluminium back supports that link the frame to the back, or is it the Symmetry that exists between the three differing versions of this cantilever meeting chair.

In a sense, it's all of the above. Meetings form an ever increasingly important part of business activity so having a suite of cantilever chairs with a

common design language and footprint provides an invaluable tool for a client wishing to differentiate its meeting and conference environments

Standard Features (*Selected models only)

Stacks upto 3 high*
Tubular steel cantilever frame
Polished aluminium back connectors
Soft touch arm pads

Optional Features

Plastic glides
Plastic glides with felt
Two-tone upholstery

Performance Standards

EN13761:2002-4
EN 15373:2007-L2

ENVIRONMENTAL

Material Content

Components are constructed of the following

Recycled Content

Contains up to 0000% of Recycled Material

Recyclability

The range is 100% recyclable

100%

SENATOR 3 R'S

Senator is committed to continually improving the sustainability of all environmental aspects within our business.

To meet both international standards and our own environmental targets we apply the three R's principle

-Reduce, Reuse and Recycle.

Whilst recycling is the element which receives the most exposure it is actually

the last option available and should never be the prime target in anyone's battle to reduce waste.

It is our duty as individuals and as a company to initially attempt to **Reduce** usage. Then we should look to **Reuse** wherever possible and finally, only after these two processes have been exhausted, should we consider **Recycling**.

–Reduce
–Reuse
–Recycle
