

Ad-Lib Scholar

The addition of the Scholar version to the Ad-Lib family recognises the changing nature of learning environments. Today the structured formality of learning environments is being replaced by the need for more interactive and flexible spaces, where students move continually from collective to individual settings.

Ad-Lib Scholar delivers a comprehensive solution with dynamic flexibility. The rotational foldaway tablet is a key element of this flexibility whilst the under seat storage tray and drink holder complete the holistic solution.

Design by PearsonLloyd

Standard Features (*Selected models only)

Injection moulded plastic seat and back frame in Anthracite*

Plastic or upholstered seat and back*

Tubular steel support base, incorporating four castors and a storage tray

Injection moulded, contoured plastic seat and back panel*

Soft touch orbital fold down work surface

Optional Features

Independent seat swivel action

50mm castors

Two-tone upholstery*

DESIGN

PearsonLloyd

The London based practice takes a collaborative approach to its work, embracing the restrictions imposed by production, the market and all the other factors that define a brief. Their work is grounded in research and at the core is an

attempt to understand the relationship between a product, its place, and the way people use it. It is this innovative thinking that earned PearsonLloyd a Red Dot Award for the design of Ad-Lib for Senator.

Material Content

Components are constructed of the following

Recycled Content

Contains up to 57% of Recycled Material

Recyclability

The range is 100% recyclable

100%

SENATOR 3 R'S

Senator is committed to continually improving the sustainability of all environmental aspects within our business.

To meet both international standards and our own environmental targets we apply the three R's principle

-Reduce, Reuse and Recycle.

Whilst recycling is the element which receives the most exposure it is actually

the last option available and should never be the prime target in anyone's battle to reduce waste.

It is our duty as individuals and as a company to initially attempt to **Reduce** usage. Then we should look to **Reuse** wherever possible and finally, only after these two processes have been exhausted, should we consider **Recycling**.

-Reduce
-Reuse
-Recycle
