

## Ad-Lib Motion

The four leg variant with castors is seen as a general purpose meeting chair, ideally suited to social, training, team work and conference environments.

The diversity of finish specification options together with the upholstery options give Ad-Lib a truly varied palette.

Design by PearsonLloyd

EN15373:2007-L2

GS Certificate

## DIMENSIONS

### DESIGN PearsonLloyd

The London based practice takes a collaborative approach to its work, embracing the restrictions imposed by production, the market and all the other factors that define a brief. Their work is grounded in research and at the core is an

attempt to understand the relationship between a product, its place, and the way people use it. It is this innovative thinking that earned PearsonLloyd a Red Dot Award for the design of Ad-Lib for Senator.

### Material Content

Components are constructed of the following

0000	TBC%
0000	TBC%
0000	TBC%
0000	TBC%
0000	TBC%

### Recycled Content

Contains up to xx% of Recycled Material

0000	TBC%
0000	TBC%
0000	TBC%
0000	TBC%
0000	TBC%

### Recyclability

The range is 100% recyclable

100%

## SENATOR 3 R'S

Senator is committed to continually improving the sustainability of all environmental aspects within our business.

To meet both international standards and our own environmental targets we apply the three R's principle

-Reduce, Reuse and Recycle.

Whilst recycling is the element which receives the most exposure it is actually

the last option available and should never be the prime target in anyone's battle to reduce waste.

It is our duty as individuals and as a company to initially attempt to **Reduce** usage. Then we should look to **Reuse** wherever possible and finally, only after these two processes have been exhausted, should we consider **Recycling**.

-Reduce  
-Reuse  
-Recycle
