

Bison

Design by Simon Pengelly

Bison is a highly stylish and distinctive tub chair design with characterful broad shoulders and a compact footprint. For such a compact chair it provides a deceptively generous and comfortable sit, due in part to the subtle flexing of the arms, backrest and sprung seat.

The combination of a slightly higher seat with its flat plane mean this chair is equally at home around a meeting table as it is in a more traditional lounge environment.

The moulded foam seat and back are both elegant and whilst striking, are enhanced by superb upholstery detailing which lends itself to two tone upholstery to further express the character of the chair.
