

Mozaik Storage

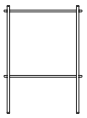

Design by Mark Gabbertas

Mozaik Storage consists of a high level soft square unit and a low level soft rectangular unit. All units begin with the same minimalist steel frame with a fixed shelf both top and bottom.

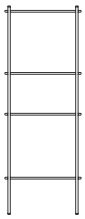

The central shelves of the high units can be removed to house tall items such as plants or vases. The low level unit makes an ideal occasional table for refreshments, books and magazines.

Design
Mark Gabbertas

Yorkshire born Mark Gabbertas graduated from Durham University with a degree in Political Philosophy. After eight years as an account manager at the advertising agency Saatchi and Saatchi Mark was ready for a change. In 1990 he left advertising to follow his passion and trained as a cabinet maker. After only two years training, Mark, set up on his own company and was commissioned to design the furniture for the Atelier restaurant in Soho, that won the FX Furniture in Practice award in 1995.
