

Karma

Karma is a light, refreshing design that clearly pays reference to the iconic tub chairs of the 50's. Its simplicity however should not be misinterpreted, its generous sitting area for such a compact overall footprint offers great comfort. The chair has been designed to work equally well in lounge and waiting environments as in the more informal meeting spaces that are seen more and more in today's workplace.

Standard Features (*Selected models only)

Moulded foam construction
Wire frame*
Tubular steel frame*
Plastic glides

Optional Features

Two-tone upholstery

Performance Standards

EN 13761:2002-4
EN 15373:2007-L2

Recyclability

The range is 100% recyclable

100%

SENATOR 3 R'S

Senator is committed to continually improving the sustainability of all environmental aspects within our business.

To meet both international standards and our own environmental targets we apply the three R's principle

-Reduce, Reuse and Recycle.

Whilst recycling is the element which receives the most exposure it is actually

the last option available and should never be the prime target in anyone's battle to reduce waste.

It is our duty as individuals and as a company to initially attempt to **Reduce** usage. Then we should look to **Reuse** wherever possible and finally, only after these two processes have been exhausted, should we consider **Recycling**.

-Reduce
-Reuse
-Recycle
