ENVIRONMENTAL

Material Content

Components are constructed of the following

Recycled Content

Contains up to 51% of Recycled Material

Recyclability

The range is 99% recyclable

99%

SKA Accreditation

EPA's to ISO14025, FSC and FISP accreditation are available for all products on request.

SENATOR 3 R'S

Senator is committed to continually improving the sustainability of all environmental aspects within our business.

To meet both international standards and our own environmental targets we apply the three R's principle

-Reduce, Reuse and Recycle.

Whilst recycling is the element which receives the most exposure it is actually

the last option available and should never be the prime target in anyone's battle to reduce waste.

It is our duty as individuals and as a company to initially attempt to **Reduce** usage. Then we should look to **Reuse** wherever possible and finally, only after these two processes have been exhausted, should we consider **Recycling**.

–Reduce
–Reuse
–Recycle
