Salus/ PSSA02

Salus is an innovative, ergonomically designed patient chair, providing continuous postural support with Medipur™ anti-microbial surfaces.

Design by Tim Wallace

Standard Features

- Integral skin Medipur™ with soft compressible centre and an outer impermeable surface.
- Housekeeping wheels as standard
- No stitiching and smooth underside assist in infection control
- Contoured seat/back replicate the shape of the body, compressing to offer continuous postural support.
- Pressure relieving seat with sprung internal frame relieves pressure on the sacral area.
- 160kg maximum load

Optional Features

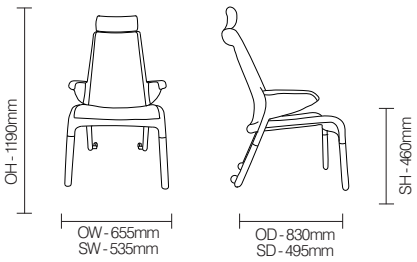

- Height adjustment glides and/or wheels
- Additional high risk pressure relief cushion

Performance Standards

BS EN15373:2007

BS5852 Crib 5
