

Monitor Arms

Our newly designed Vision S monitor arm offers the ergonomic benefits of an assisted monitor arm but is much more affordable. Vision S can be installed at different heights to suit different environments with rotation and height adjustments being made by the individual users. The 32mm diameter pole allows a huge 330mm of height adjustment, while the design also allows a full 360 degrees of swivel movement with full head tilt to be positioned at the optimum eye level.

Vision S Monitor Arm

Features

- Each single arm can support monitors up to 6kg
- The maximum extension of each single arm is 460mm when measured from the centre of the Vision pole to the centre of the VESA mount
- The monitor can be attached using the 75mm or 100mm VESA compliant mount
- The arm features cable management clips that can be attached to the arm and pole as required
- Includes C clamp and through desk and grommet fixing kits designed to fit desk thicknesses ranging from 15mm to 35.5mm

Vision S Single Arm

Code	Colour	Description
68V001	Silver	Single Vision pole arm with C clamp, Bolt Through and 80mm Grommet fixing kit. With black plastic trim
