TEAL KWICKSCREEN AIR

Wall-mounted Flexible Cubicle Divider

Embodying all of the benefits and features of the original Teal KwickScreen, the Teal KwickScreen Air is ultra lightweight, more flexible and ready to help you create your space.

• Light

The Teal KwickScreen Air features a simplified, lighter frame, with no aluminium casing. The handle and base have both been reduced in size and weight, allowing the frame to be supported on only two castors. This lightweight body allows effortless extension and retraction of the screen, with nearly no force required.

• Slim

The slim design enables the Teal KwickScreen Air to occupy the smallest of spaces. This is perfect for scenarios where space is precious.

• Flexible

The screen has a full 180 degree range of movement, and can be extended at any angle within this range from the wall bracket. This increases the flexibility of the screen, meaning it can be used in more places.

FEATURE BENEFITS

Improved Infection Control

Made out of impermeable materials, the Teal KwickScreen Air can be wiped clean after every patient, unlike curtains.

Privacy & Dignity

The Teal KwickScreen Air provides great privacy and dignity for patients as it is more substantial than curtains. Multiple Teal KwickScreens can also be joined to create a private, seamless bay.

Better Patient Experience

Art has a proven direct effect on health and well being, and the printable inners can bring the healing benefits of art to the patient and brighten up the clinical environment.

Cost Effective

No laundering or time rehanging, easy quick cleaning, replaceable inner, no ceiling tracks

Cleaner & Safer Environment

With only two wheels there is no trip hazard along the length making the ward safer but also easier to clean around.

Fully Retractable

The Teal KwickScreen Air can be retracted when not in use and pulled out to any length up to 3m in an instant without needing to use brakes.

Easy Installation

Only a few screws required to fix to the wall. Teal can include fixing - ask for a quote.

No Brakes

Unlike other screens, the Teal KwickScreen Air does not need brakes to be held

Self-Closing

The screen attaches securely to the wall, and features an innovative self-closing mechanism. When retracted the screen will click shut, holding it seamlessly against the wall.

CUSTOMISATION

The Teal Kwickscreen Air features a double sided printable inner panel. You can customise your panels by choosing from the diverse selection of images within our print catalogue. The inner panels can be easily unzipped and replaced with different images whenever you wish, giving you complete flexibility with your designs. Our team will assist you in choosing complimentary standard or bespoke images for your environment.
