

Dash

Dash is designed for simplicity and ease of use with simple styling, excellent performance and high comfort. The understated nature of the design disguises the fundamental strength and flexibility of the chair.

The chair performs exceptionally well with its standard range of functional and dimensional adjustments, but where it excels is in its ability to integrate a host of user specified options that take the chair to another level of performance.

Standard Features (*Selected models only)

SENATOR 3 R'S

Senator is committed to continually improving the sustainability of all environmental aspects within our business.

To meet both international standards and our own environmental targets we apply the three R's principle

-Reduce, Reuse and Recycle.

Whilst recycling is the element which receives the most exposure it is actually

the last option available and should never be the prime target in anyone's battle to reduce waste.

It is our duty as individuals and as a company to initially attempt to **Reduce** usage. Then we should look to **Reuse** wherever possible and finally, only after these two processes have been exhausted, should we consider **Recycling**.

-Reduce
-Reuse
-Recycle
