

Trillipse Cantilever

The Cantilever version of Trillipse is the workhorse of the range and delivers fantastic comfort thanks to its tripliptical cantilever frame. It is just as at home in compact team meeting spaces as it is in a boardroom thanks to the diversity of finish options.

Design by Paul Brooks

SENATOR 3 R'S

Senator is committed to continually improving the sustainability of all environmental aspects within our business.

To meet both international standards and our own environmental targets we apply the three R's principle

-Reduce, Reuse and Recycle.

Whilst recycling is the element which receives the most exposure it is actually

the last option available and should never be the prime target in anyone's battle to reduce waste.

It is our duty as individuals and as a company to initially attempt to **Reduce** usage. Then we should look to **Reuse** wherever possible and finally, only after these two processes have been exhausted, should we consider **Recycling**.

-Reduce
-Reuse
-Recycle
